

Dear ENERGODOM 2018 Participant,

The start of the conference is getting closer and closer. Therefore, we want to provide you with a number of practical information related to its course and organization.

We have already sent you the initial conference program. We hope that the future necessary changes will have only a cosmetic character. The most recent version of the program will be available on our website.

The conference will take place in the main campus of Cracow University of Technology, located in Krakow on the corner of Warszawska and Szlak streets, in the building called "DZIAŁOWNIA", next to Szlak Street.

PRESENTATION

The entire conference will be held in English (or language close to English), including presentations and discussion. The maximum presentation time is **10 minutes**. We kindly ask you to check in advance whether the planned scope of the presentation meets this condition. The main purpose of personal conference meetings is the opportunity to exchange opinions, which is why we assume that an important part of each session is discussion. There must be time for discussion, so we will have to follow the adopted conditions, not excluding the interruption of the presentation. Please upload your presentation to the conference computer at the latest before the session and check if the file can be properly run.

CITY TOUR

Each participant of the conference will receive a 24 h ticket for the tour around Krakow city center. All the details and the conditions of ticket use are given on the website:
